ProQuip SaniQuip® Mixers

ProQuip offers a complete range of all-stainless steel mixers, incorporating proven *ProQuip Mixing Technology* into exceptional sanitary designs—both inside and out. ProQuip SaniQuip Mixers are compact and light-weight. They are ideal for sanitary, pharmaceutical, biological, food processing, and cosmetic applications, from 50 to 20,000 liters.

Standard features of ProQuip SaniQuip mixers include:

- All-stainless steel construction with smooth surfaces in an open pedestal design for superior wash-down capability
- Complete range of welded sanitary impellers, including hydrofoils, axial and radial turbines, and specialty designs
 - In-tank wetted parts mechanically polished from 35 Ra micro-inch to 5 Ra micro-inch finish
 - Full range of shaft seals to meet application requirements

SaniQuip® SDA Series

Tank Sizes from 50 to 1,000 liters

Minimum footprint with integral tri-clamp mounting and stainless steel, light-weight servo motor

- Stainless steel brushless servo motor designed to handle IP67 and withstand 1500 psi washdown conditions
- Nema 4x, washdown duty servo drive with Smart Keypad and display provides continuous speed control and digital tachometer
- Integrated output connections for direct data acquisition

SaniQuip® SGA Series

Tank Sizes from 1,000 to 20,000 liters

Minimum footprint with integral tri-clamp mounting and stainless steel, light-weight servo motor and integral planetary gearbox

- Stainless steel brushless servo motor designed to handle IP67 and withstand 1500 psi washdown conditions
- Nema 4x, washdown duty servo drive with Smart Keypad and display provides continuous speed control and digital tachometer. Integrated output connections for direct data acquisition
- Stainless steel high precision, planetary gearbox with precision helical gearing for smooth and quiet operation
- Lubrication by synthetic Nyogel 72D grease for operation over the whole service life and sealed to IP65 standard for protection and maintenance-free performance

SaniQuip® SA Series

Tank Sizes from 50 to 5,000 liters

High performance stainless steel air motor drive with integral tri-clamp mounting for minimal footprint

- Lubrication-free, high torque, and all-stainless steel air motor drive
- Air motor easy to service and highly reliable
- Speeds up to 2,000 rpm
