

Mixing Solutions
As Unique As Your Needs
All Stainless Steel Sanitary Mixer Lines

SaniQuip® SGRA Series

Tank Sizes from 1,000 to 20,000 liters

Minimum footprint with integral tri-clamp mounting and stainless steel, light-weight servo motor and integral stainless steel gearbox

- All-stainless steel construction with smooth surfaces in an open pedestal design for superior wash-down capability
- Stainless steel brushless servo motor designed to handle IP67 and withstand 1500 psi washdown conditions
- Nema 4x, washdown duty servo drive with Smart Keypad and display provides continuous speed control and digital tachometer. Integrated output connections for direct data acquisition
- Stainless steel gearbox with high precision ground spiral bevel gear sets for smooth and quiet operation
- Lubrication by synthetic Nyogel 72D grease for operation over the whole service life and sealed to IP65 standard for protection and maintenance-free performance
- Complete range of welded sanitary impellers, including hydrofoils, axial and radial turbines, and specialty designs
- In-tank wetted parts mechanically polished and EP from 35 Ra micro-inch to 5 Ra micro-inch finish
- Full range of shaft seals to meet application requirements

Sizes: 1/2 – 5 HP
Speeds: 100- 1000 RPM
Constant Torque, Servo Motor
Integral Planetary Gearbox
Shaft Diameter: 3/4" standard

GUARANTEE
