

V SERIES TANK AGITATOR

Sizes: 10 to 250 HP
Speeds: 5 to 200 RPM
Torques: up to 300,000 in-lbs
Shaft Sizes: up to 7 inches

NEMA or IEC Motor
Flexibly Coupled to
Gearbox

- **Rugged split cast iron housing** resists shock loads, maintains accurate gear alignment
- **High efficiency multi-stage helical gearing**
- **Oversized high capacity alloy steel output shaft** provides stiffness for high bending loads
- **Heavy-duty output shaft bearings** carry radial and axial loads generated by mixing impeller. L-10 bearing lives in excess of 100,000 hours.
- **Dry-well dam on output shaft** provides a positive barrier against oil leakage

GUARANTEE ProQuip, Inc. accepts full responsibility for furnishing suitable equipment which shall be fit for the purpose which it is required, and for its successful operation under the conditions for which it was specified.
